November 24, 2018

To whom it may concern,

It has been my pleasure to know Parker Knopf during the last three school years. Parker is an outstanding young man. He is a top scholar that is committed to succeed academically as well as in sports, leadership and in the technical field. In 33 years as an advanced mathematics instructor, I have known few students that possess the broad range of qualities that Parker possesses. Parker is focused and his maturity has provided an example for others to follow throughout his high school career. He adds to the personality and quality of a class in a respectful yet assertive manner.

Parker is an active leader in Norco High's CTE program, the associated student body, swimming and in my academic club, California Scholarship Federation. As his records show, he is successful at the highest level in all of these endeavors. His carefully detailed and busy schedule seems to create a positive synergy that Parker thrives on. His peers seem duly impressed and he is typically at the center of meaningful and exciting activity both on and off campus.

Parker is a terrific young man that has all the qualities of a great future ambassador for the college or university lucky enough to admit him. He is truly exceptional and extraordinarily well qualified to study and compete in a stimulating and highly competitive environment. It is without reservation that I recommend Parker for any scholarship that your organization makes available to highly motivated and talented students. If there are any questions that I can answer regarding Parker, please do not hesitate to contact me.

Sincerely,

Joel B. Titterud  
Mathematics Department  
Norco High School
